Let’s Go to the Beach!

Mack and I love the beach, and we've visited different beaches all around the world on our adventures! But not everyone can live close to the ocean — especially if you live in the middle of a continent.

That’s why we thought it would be fun to bring the beach to you — in a snack! These beach cups are easy to make and — best of all — they taste delicious!

Let's Make Beach Cups

These tasty snack cups are great for an afternoon snack or a yummy dessert!

Ingredients

✓ Blue Jell-O
✓ Vanilla pudding or whipped cream
✓ Crushed graham crackers
✓ Teddy Grahams (optional)
✓ Fish gummies (optional)

Here's how you make it

Make the Jell-O, and pour it into little cups or bowls. Let it set in the fridge.

Make the vanilla pudding, and let it thicken in the fridge.

Once the Jell-O and pudding are both ready, scoop some vanilla pudding on top of the Jell-O. That’s your second layer! (Or if you prefer whipped cream, spoon that on top of the Jell-O instead.)

Now sprinkle your crushed graham crackers on top. This is the sand on your beach!

Top the beach with whatever animals you want — Teddy Grahams for beachgoers or fish for ocean creatures.

Eat and enjoy!
