ABUAHOI*; Americas

The translation team has focused on finishing an audio recording of the Scriptures, which is key in reaching the Abuahoi.

» **Praise God**, people’s prayers have been effective — the audio recordings have been completed, and the files are ready to be put on MegaVoice players (hand-held, solar-powered digital audio players). **Ask Jehovah-jireh** to raise up funds for the players.

» **Lift up** a team that is working on technical details of a Scripture app for both Android and iOS that includes the New Testament in print and audio. They need to synchronize a highlight in the app that moves with the text and audio.

» **Pray** that interest and support will grow for a printed New Testament. Previously the community only supported an audio version.

» **Pray** for people to make time in their busy schedules to complete these projects.

CREVICE*; Americas

Over the years, our spiritual enemy has discouraged this project with repeated obstacles. Through prayer, God will have the final victory!

» **Thank the Lord** for his grace and strength — the team completed an audio recording of the New Testament and a portion of Genesis last year. Improvements discovered during the recording process were implemented into the text and typesetting can now begin.

» **Lift up** the woman doing the typesetting, that she’ll have good health and strength. It’s an intense process with numerous details. **Pray** for stamina for the entire team as well.

» **Ask God** to strengthen the man and technical team who are editing the audio recordings. **Pray** that the equipment will work well, resulting in an excellent recording.

» Above all, **pray** that Crevice hearts will be prepared to receive the Scriptures in their own language and that God will touch many people through his Word.

UNABEL*; Americas (1,800)

Two Unabel villages have been reading through the New Testament a final time to make sure the text sounds natural and is understood correctly.

» **Pray** for feedback so the translation team can make any modifications necessary before the New Testament is typeset.

» Key community leaders, both believers and unbelievers, are meeting to work through alphabet issues that need to be resolved before the New Testament can be published. **Pray** for good, productive meetings and openness among the participants so that a consensus can be reached. **Pray** that discussions will result in an alphabet that is easy for people to use.

» **Ask the Lord** to renew the team’s strength and keep them alert as they prepare the final text, maps, a glossary of terms, footnotes, illustrations and cross references for typesetting. **Pray** that their families will be healthy so they can stay focused. The team would like to be ready to typeset the New Testament by the end of this year.

BORÔRO; Brazil (1,390)

The Borôro translation program has been a challenging one, with very few Christians to take the lead. God has the victory though!

» **Praise God** that by his hand and through the prayers of many an audio edition of the New Testament was dedicated from August 9-11, 2019, in the village area. The Borôro are primarily an oral society. As they listen to God’s Word, **pray** for great fruit among non-believers and for spiritual growth among believers.

» **Pray** that Borôro believers, challenged by the dedication festival, will actively share the gospel with others.

» Pastor Josué, a Brazilian Baptist minister who was going to be an integral part of developing and implementing a distribution strategy for the New Testament, passed away suddenly last year from pancreatic cancer. **Ask the Lord** to raise up others to take his place.

» **Pray** that some of the Borôro Christians will be able to attend the National Council of Indigenous Evangelical Pastors and Leaders conference this year. It would be a tremendous encouragement to fellowship with other indigenous Christian leaders from across Brazil.

Completing a New Testament translation involves thousands of details from initial rough draft translations to numerous checks — all to ensure that the final manuscript is accurate, clear and communicates naturally.

MECHOACÁN MIXTEC; Mexico (8,500)

A dream became a reality on May 25, 2019, when the Mechoacán Mixtec churches and community received the New Testament in their language. He demonstrated that the Mixtecs now have spiritual food for the rest of their lives!

EASTERN HIGHLAND OTOMÍ; Mexico (100,000)
Many Eastern Highland Otomí revere the spirit world but don’t know that the one, true God of the Bible has ultimate authority in both the natural and the spirit world. The New Testament was published in 1974 and a team is working hard to provide the Old Testament too.

- A major step in the translation process is for a trained consultant to review each book and make sure it is accurate, sounds natural and is easy to understand. There is a shortage of consultants, however. Please pray for God to provide consultants for this project.
- The team is revising the New Testament so they can publish it with the Old Testament as a full Bible. Ask God to help them discern what parts can be improved and to ensure that key biblical terms are consistently translated.
- Pray that God will “... accomplish infinitely more than we might ask or think” (Ephesians 3:20, NLT) through God’s Word in Eastern Highland Otomí.
